EDUCATION

Middlebury College Middlebury, Vermont
Candidate for Bachelor of Arts – Major in Statistics May 2026

- **Major GPA:** 3.80/4.00, **Cumulative GPA:** 3.90/4.00
- **Relevant Coursework:** Statistical Learning, Time Series Analysis, Bayesian Statistics, Probability, Statistical Inference, Linear Algebra, Multivariable Calculus
- **Programming Skills:** R, Rstudio, LaTeX, Tidyverse, Data Visualization & Wrangling, Web scrapping
- **Language Skills:** Fluent in English and Proficient in Amharic
- **Leadership & Activities:** Posse Scholar, Board member of Distinguished Men of Color, Intramural Sports, Middlebury Intervarsity Fellowship

Middlebury College Middlebury, Vermont
Candidate for Bachelor of Arts – Major in Molecular Biology and Biochemistry May 2026

- **Major GPA:** 3.92/4.00, **Cumulative GPA:** 3.90/4.00
- **Relevant Coursework:** Statistical Learning, Time Series Analysis, Bayesian Statistics, Statistical Inference, Linear Algebra, Multivariable Calculus, Probability
- **Skills:** R, Rstudio, LaTeX, Tidyverse, Data Visualization & Wrangling, Web scrapping

EXPERIENCE

Middlebury Statistics Department Middlebury, Vermont
Teaching Assistant Fall 2025 - Present

- Supporting student learning in statistical modeling, machine learning, and data analysis by facilitating help sessions.
- Helping students in developing proficiency with R and RStudio for implementing methods such as classification, clustering, and tree-based models.
- Strengthening communication and mentoring skills by explaining complex statistical concepts in accessible ways and providing individualized support during coursework.

Middlebury Statistics Department Middlebury, Vermont
Research Assistant Summer 2025

- Conducted computational analysis of LC–MS metabolic data using MS-Dial and R to identify metabolites with distinct behavioral patterns in the oral biome.
- Collaborated on an interdisciplinary study at the intersection of biochemistry and statistics, applying algorithmic methods with potential applications of faster diagnosis.

Middlebury Chemistry Department Middlebury, Vermont
Lab Assistant Fall 2024 – Spring 2025

- Assisted in developing and testing chemical reactions, focusing on improving efficiency and selectivity in organic synthesis.
- Gained hands-on experience with specialized lab equipment including gloveboxes, photoreactors, and analytical tools (GC–MS, NMR).
- Presented research findings at the Middlebury Spring Symposium, communicating complex scientific concepts to both knowledgeable and general audiences.
