EDUCATION

Middlebury College

Middlebury, Vermont

Candidate for Bachelor of Arts – Major in Statistics

May 2026

- **Major GPA:** 3.79/4.00, **Cumulative GPA:** 3.89/4.00
- **Relevant Coursework:** Statistical Learning, Time Series Analysis, Bayesian Statistics, Probability, Statistical Inference, Linear Algebra, Multivariable Calculus
- **Programming Skills:** R, Rstudio, LaTeX, Tidyverse, Data Visualization & Wrangling, Web scrapping
- **Language Skills:** Fluent in English and Proficient in Amharic
- **Leadership & Activities:** Posse Scholar, Board member of Distinguished Men of Color, Intramural Soccer, Middlebury Intervarsity Fellowship

Middlebury College

Middlebury, Vermont

Candidate for Bachelor of Arts – Major in Molecular Biology and Biochemistry

May 2026

- **Major GPA:** 3.93/4.00, **Cumulative GPA:** 3.89/4.00
 - **Relevant Coursework:** Organic Chemistry, Biochemistry of Macromolecules, Molecular Genetics, Topics in Biotechnology, Future of RNA, Cell Biology
 - **Skills:** NMR, GC-MS, LC-MS, MS-dial, Snappgene, Presenting, Organized Notetaking
-

EXPERIENCE

Middlebury Statistics Department

Middlebury, Vermont

Teaching Assistant

Fall 2025 – Winter 2026

- Supported students learning statistical modeling, machine learning, and data analysis by facilitating help sessions.
- Helped students develop proficiency with R and RStudio to implement methods such as classification, clustering, and tree-based models.
- Strengthened communication and mentoring skills by explaining complex statistical concepts in accessible ways and providing individualized support during coursework.

Middlebury Statistics Department

Middlebury, Vermont

Research Assistant

Summer 2025

- Conducted analysis of LC–MS metabolic data using MS-Dial and R to identify metabolites with distinct behavioral patterns in the oral biome.
- Collaborated on an interdisciplinary study using my understanding of biochemistry and statistics, applying algorithmic methods with the potential application of faster diagnosis.

Middlebury Chemistry Department

Middlebury, Vermont

Lab Assistant

Fall 2024 – Spring 2025

- Assisted in developing and testing chemical reactions, focusing on improving efficiency and selectivity in organic synthesis.
 - Gained hands-on experience with specialized lab equipment including gloveboxes, photoreactors, and analytical tools (GC–MS, NMR).
 - Presented research findings at the Middlebury Spring Symposium, communicating complex scientific concepts to both knowledgeable and general audiences.
-
